<b>Name</b>	<b>Date</b>	<b>Description</b>	<b>Hours</b>	<b>Amount</b>
Bob Zhang	03/02/20	2.0 Analyzed Collibra console by mapping the services to determine the cause of the error in connection.	2.0	
Bob Zhang	03/02/20	1.1 Meeting with T. Howe, K. Cook, G. Vadathu, F. Molina, C. Mattos, K. Muppa (PG&E), T. Sedgwick, J. Conkel, G. Dupree, and K. Hornland (KPMG), to discuss the status of the Data Inventory and De-Identification work stream deliverables and relative tasks-in-motion. T. Sedgwick (KPMG) led discussions on both work streams, including providing detail on the upcoming project plans. K. Hornland and B. Zhang (KPMG) both provided status of the Collibra product installations, with focus on the patching of the Collibra production servers and the remaining dependencies required to complete the installation. J. Conkel and G. Dupree (KPMG) both provided status of Vendor B implementation, with focus on the installation configurations, Active Directory authentication, and Cloud inventory.	1.1	
Bob Zhang	03/02/20	3.0 Created Data Inventory High Level tracker based on upcoming major milestones for the Data Inventory project at PG&E.	3.0	
Bob Zhang	03/02/20	1.0 Updated Data Inventory Task list based on new activities / requested additions from F. Molina and G. Vadathu (PG&E);	1.0	
Bob Zhang	03/02/20	0.9 Meeting with T. Sedgwick, J. Conkel, K. Hornland, Y. Kerzner, D. Matulula, and G. Dupree (KPMG) to discuss the pending items leading to the completed configurations of both the Collibra and Vendor B applications as part of the Data Inventory and DataDe-Identification work streams. K. Hornland and B. Zhang (KPMG) discussed the patching of the Collibra production servers required for the approval of the outstanding Firewall Exception Request, as well as configuring the Secure Sockets Layer certificates in the consoles. Y. Kerzner and G. Dupree (KPMG) led the discussion around finishing the production installation Vendor B. T. Sedgwick (KPMG) discussed current action items and prioritization. D. Matulula (KPMG) recorded the resulting action items, concurrently updating the project milestone tracker to reflect the items covered during this meeting.	0.9	
Dan Matulula	03/02/20	2.5 Reviewed Enterprise Information Management along with workflow configurations.	2.5	
Dan Matulula	03/02/20	2.2 Began consolidation of information regarding Infrastructure, concurrently upgrading paths for Collibra operating model.	2.2	
Dan Matulula	03/02/20	1.8 Finalized the SysAdmin workflow configurations section of the Collibra tool.	1.8	
Dan Matulula	03/02/20	1.5 Reviewed Collibra software RACI methodologies.	1.5

 Data Security Services  
 March 1, 2020 through March 31, 2020

Name	Date	Description	Hours	Amount
Toby Sedgwick	03/03/20	0.5 Meeting with G. Vadathu, K. Muppa (PG&E), J. Conkel, and G. Dupree (KPMG) to discuss the impact of the network attached storage shares that have multiple Domain Name System (DNS) entries and develop a plan for submitting the required Firewall Exception Requests (FERs) that will allow the Data Loss Prevention tool to scan these network locations.	8.0	
Dan Matulula	03/03/20	1.5 Continued, as of 3/2, to finalize infrastructure and upgrade paths for implementation delivery; 2.0 Moved upgrade paths to Collibra Console, routing back and refreshing the out-of-box operating model.;	3.5	
Kristy Hornland	03/03/20	3.2 Preparation for the debrief on the PG&E cyber account by reviewing current state of PG&E deliverables along with potential barriers to timeline, and recent client feedback - to be prepared to give current state of business overview to partner on project.	3.2	
Bob Zhang	03/03/20	3.0 Working session with J. Conner (PG&E) of the PADM team to perform troubleshooting related to L1 Collibra access to the production servers .	3.0	
Kristy Hornland	03/03/20	3.0 Updating the project tracker timeline to reflect new change order details as of 3/3/2020 for ultimate communication to PG&E	3.0	
Garrett Dupree	03/03/20	2.8 Analyzed the issues with the Intelligent Data Processors (IDPs) located in the Fairfield datacenter that is unable to communicate with the primary controller web server (this resulted in fixing one of the IDPs to work correctly, but additional super user command provisions are required to fix the other IDP that is still unable to communicate).	2.8	
Garrett Dupree	03/03/20	2.8 Analyzed the permissions issues that are preventing the Level One (L1) group members from successfully controlling the Vendor B services; this resulted in the submission of another security operations service request to add additional stanzas to the powerbroker entries for these Vendor B servers.	2.8	
Garrett Dupree	03/03/20	2.8 Generated the Certificate Signing Request (CSR) for the Vendor B production standby controller, which is the first step in the process of enabling Secure Sockets Layer (SSL) communication between this web server and the application end users.	2.8	
Dan Matulula	03/03/20	2.5 Completed drafting Console guide, concurrently reviewing for Collibra tool configuration.;	2.5	
Kristy Hornland	03/03/20	2.1 Continue, as of 3/3, updating the project tracker timeline to reflect new change order details for ultimate communication to PG&E	2.1	
Bob Zhang	03/03/20	2.0 Drafted initial Operating Model proposal for the PG&E data environment based on the developed import template.	2.0

Kristy Hornland	03/04/20	3.6 Updated the existing project plan (visual) timeline as of 3/4	3.6	
Kristy Hornland	03/04/20	3.3 Continue, as of 3/4, updating the existing project plan (visual) timeline.	3.3	
Garrett Dupree	03/04/20	2.9 Created a Java Keystore for the Vendor B production standby controller using the signed certificate request received from the Certificate Authority (CA). This keystore is required for presenting the appropriate certificate clusters to the web application services on the Vendor B servers.	2.9	
Dan Matulula	03/04/20	1.5 Finalized the Java Rest API section.; 0.7 Finalized workflow & API.; 0.6 Continued to automation and task assignment portion.;	2.8	
Dan Matulula	03/04/20	2.7 Reviewed Diagram Enhancements for Collibra tool calibration.	2.7	
Dan Matulula	03/04/20	2.5 Began finalization of Java/Rest section of tool in preparation for checkpoint review.;	2.5	
Garrett Dupree	03/04/20	2.3 Updated the spreadsheet of 2020 data de-identification milestones to include dates for tracking when each task is forecasted to be completed at the request of G. Vadathu (PG&E).	2.3

Yosef Kerzner	03/04/20	0.5 Meeting with T. Howe, G. Vadathu, B. Spell, N. Ranganathan, K. Muppa, F. Molina (PG&E), T. Sedgwick, J. Conkel, K. Hornland, B. Zhang, and G. Dupree (KPMG) to discuss the pending tasks and roadblocks relative to the Data Inventory and Data De-Identification work streams. K. Hornland and B. Zhang (KPMG) discussed the remaining configurations required for the production instance of the Collibra application, which largely centered around the port communication issues between the production console server and the secondary database server, and required patching of the production servers. Y. Kerzner and J. Conkel (KPMG) discussed the upcoming plan to coordinate between the Vendor B Cloud Subject Matter Expert and the PG&E Cloud Center of Excellence for upcoming cloud activities. T. Sedgwick and G. Dupree (KPMG) discussed the tasks-in-motion relative to completing the Vendor B application installation and configurations within both the production and non-production environments, with a focus on Firewall Exception Requests required for connections to databases.;	0.5	
Garrett Dupree	03/04/20	0.4 Meeting with S. Chawande (PG&E) and Y. Kerzner (KPMG) to further troubleshoot firewall issues with connections between different components of the Vendor B tool instance in the Production environment.	0.4	
Yosef Kerzner	03/04/20	0.4 Meeting with S. Chawande (PG&E), G. Dupree (KPMG) to further troubleshoot firewall issues with connections between different components of the Vendor B tool instance in the Production environment.	0.4	
Kristy Hornland	03/05/20	3.4 Reconciled the De-Identification workstream timeline against the Data Inventory timeline as of 3/5	3.4	
Dan Matulula	03/05/20	1.7 Assessed cloud execution and implementation techniques related to how to configure Collibra-hosted instance of Data Governance Center.; 1.3 began Collibra software integration with Amazon S3 software	3.0	
Garrett Dupree	03/05/20	2.8 Updated the data de-identification milestone tracker spreadsheets to include items denoting the deliverables that correspond to each milestone as well as the expected date of completion for these new items. This task was performed at the request of T. Sedgwick (KPMG) and G. Vadathu (PG&E).	2.8	
Dan Matulula	03/05/20	2.7 Reviewed Registration/ingestion and profiling JDBC.;	2.7	
Bob Zhang	03/05/20	2.5 Configured Collibra Disaster Recovery Repository to the Production Console based on Collibra installation guide.;	2.5	
Kristy Hornland	03/05/20	2.5 Performed troubleshooting of FER#103821 to resolve traffic going over 4401.;	2.5

<b>Name</b>	<b>Date</b>	<b>Description</b>	<b>Hours</b>	<b>Amount</b>
Dan Matulula	03/05/20	1.0 Continued, as of 3/5, Diagram enhancements for Collibra tool calibration.; 1.3 Assessed the Catalog and workflow methodologies for data exportation	2.3	
Kristy Hornland	03/05/20	2.2 Reconciled the De-Identification workstream timeline against the Data Inventory timeline as of 3/5	2.2	
Bob Zhang	03/05/20	1.0 Meeting with C. Patel, S. Chawande, K. Muppa, F. Molina (PG&E), K. Hornland (KPMG) to open a required port to connect network traffic based on an implemented Firewall Exception Request and to test the connection though Linux commands and Collibra console.	1.0	
Bob Zhang	03/05/20	1.0 Performed follow-up with F. Molina (PG&E) on the status of outstanding Firewall Exception Requests needed to complete the configuration of the Collibra production instance.	1.0	
Bob Zhang	03/05/20	1.0 Performed troubleshooting with W. Xie (PG&E) to the listening ports on the Disaster Recovery server and restarted services on all Production servers.	1.0	
Bob Zhang	03/05/20	1.0 Updated Project Work Plan for the Data Inventory Project based on feedback from K. Hornland (KPMG) in preparation to review with T. Sedgwick (KPMG);	1.0	
Kristy Hornland	03/05/20	1.0 Meeting with C. Patel, S. Chawande, K. Muppa, F. Molina (PG&E), B. Zhang (KPMG) to open a required port to connect network traffic based on an implemented Firewall Exception Request and to test the connection though Linux commands and Collibra console.	1.0	
Toby Sedgwick	03/05/20	0.5 Call with T. Sedgwick and K. Hornland (KPMG) to discuss project status updates, project achievements, upcoming deliverables, and risks and issues as of 3/5/2020; 0.5 reviewed Vendor B remediation communications;	1.0	
Bob Zhang	03/05/20	0.8 Added accomplishments / upcoming activities to the Weekly Status communications as of 3/5/2020.	0.8	
Michael Gomez	03/05/20	0.5 Call with T. Sedgwick and K. Hornland (KPMG) to discuss project status updates, project achievements, upcoming deliverables, and risks and issues as of 3/5/2020.	0.5	
Bob Zhang	03/05/20	0.4 Meeting with F. Molina (PG&E), G. Dupree, K. Hornland, and B. Zhang (KPMG) to conduct troubleshooting activities on the Firewall Exception Request port between the Collibra production console and the Disaster Recovery Database.	0.4	
Garrett Dupree	03/05/20	0.4 Meeting with F. Molina (PG&E), K. Hornland, B. Zhang (KPMG) to conduct troubleshooting activities on the Firewall Exception Request port between the Collibra production console and the Disaster Recovery Database.	0.4

Data Security Services  
March 1, 2020 through March 31, 2020

<b>Name</b>	<b>Date</b>	<b>Description</b>	<b>Hours</b>	<b>Amount</b>
Bob Zhang	03/05/20	0.3 Follow-up with K. Hornland (KPMG) regarding the Project Work Plan for the Cloud Data Inventory project, including key dates, handover to PG&E Data Security Program Office, and potential Go-Live and Stabilization options.	0.3	
Bob Zhang	03/06/20	3.0 Loaded test data into Development Collibra console to determine options for Operating Model layout and data elements to capture.	3.0	
Garrett Dupree	03/06/20	2.9 Configured the Vendor B primary controller in the production environment to use Active Directory for user authentication rather than the local database authentication method. This configuration works towards completing the production installation of the Vendor B application.	2.9	
Bob Zhang	03/06/20	2.5 Updated the 2020 project plan for the Data Inventory work stream.	2.5	
Garrett Dupree	03/06/20	2.4 Updated the data de-identification Technical Runbook deliverable to include sections that detail how to import Active Directory user groups within the Vendor B application and how to use these groups for both authentication and authorization.	2.4	
Garrett Dupree	03/06/20	2.2 Configured the Vendor B primary controller in the production environment to use security groups for user role authorization within the application. These groups and their underlying users had to be imported into the tool and assigned roles based on the business functions that correspond to each group.	2.2	
Kristy Hornland	03/06/20	2.2 Revised weekly status report for G. Vadathu (PG&E) to include de-ID and data inventory weekly updates as of 3/6/2020.	2.2	
Garrett Dupree	03/06/20	2.0 Submitted active directory service account creation requests for the Vendor B production and quality assurance controllers. These accounts are responsible for handling the Active Directory queries during the user login process and are a required step towards finishing the application installations in both environments.	2.0	
Bob Zhang	03/06/20	1.0 Discussion with D. Fernandez (PG&E) to perform troubleshooting related to provision access to the L1 Production Group on the Disaster Recovery server.;	1.0	
Bob Zhang	03/06/20	1.0 Updated Data Inventory Status Tracker, as of 3/6, with updates from the week relating to the Collibra installation and configuration in preparation to distribute.	1.0	
Garrett Dupree	03/06/20	1.0 Created a report detailing the weekly accomplishments / goals for next week relative to the data de-identification project work stream at the request of G. Vadathu (PG&E).	1.0	
Kristy Hornland	03/06/20	0.8 Communication with G. Dupree, Y. Kerzner (KPMG) to update weekly status presentation for PG&E team and also discuss various issues with document drafts for De-Identification workstream	0.8

Bob Zhang	03/06/20	0.5 Meeting with T. Sedgwick (KPMG) to review the 2020 project plan for the Data Inventory work stream. Discussions included the timing of the cloud data inventory and remediation workflow, completion of the application installation and configuration, and the go live/stabilization process.;	0.5	
Toby Sedgwick	03/06/20	0.5 Meeting with B. Zhang (KPMG) to review the 2020 project plan for the Data Inventory work stream. Discussions included the timing of the cloud data inventory and remediation workflow, completion of the application installation and configuration, and the go live/stabilization process;	0.5	
Garrett Dupree	03/06/20	0.4 Conversation with Y. Kerzner (KPMG) to discuss applying to roles in PG&E access management tool, to properly be able to administer the tool, as well as planned updates to draft deliverables.	0.4	
Yosef Kerzner	03/06/20	0.4 Conversation with G. Dupree (KPMG) to discuss applying to roles in PG&E access management tool, to properly be able to administer the tool, as well as planned updates to draft deliverables.	0.4	
Bob Zhang	03/09/20	3.4 Migrated Project Work Plan from Excel into Microsoft Project based on input received from T. Sedgwick (KPMG);	3.4	
Kristy Hornland	03/09/20	3.3 Drafted summary of remediation pilot activities to present in Tuesday meeting over remediation pilot close out report.	3.3	
Yosef Kerzner	03/09/20	0.5 Followed up with Vendor B team members on data transfer costs between AWS cloud availability zones.; 2.5 Drafted email to application owners of the three applications selected for data de-identification, and followed-up on relevant email.;	3.0	
Yosef Kerzner	03/09/20	2.0 Performed procedures to address issue on accessing the Vendor B components with proper administrative credentials .; 1.0 Updating status tracker of items in motion for the Vendor B De-Identification workstream and uploading it to the PG&E SharePoint.	3.0	
Garrett Dupree	03/09/20	2.9 Tested the modified PowerBroker stanzas provisioned by D. Fernandez (PG&E) in order to verify the correct startup of the tomcat and Catalina services on the Vendor B controller servers. The modifications were shown to be successful as the console and Catalina logs on the controller servers in both the Quality Assurance and Production environments detail the success startup of the Vendor B services. This task was lengthy as slight alterations had to be made to the startup shell files in order to keep the processes running in the background.	2.9

Dan Matulula	03/09/20	2.3 Constructed threshold workflows and assessments to understand current client data environment.	2.3	
Garrett Dupree	03/09/20	2.3 Verified the successful shutdown of the tomcat services on the Vendor B controller servers using the super user PowerBroker commands that were provisioned on these servers. This task involved executing the provisioned shutdown commands and verifying through the console out and Catalina logs that the services were correctly shutting down.;	2.3	
Kristy Hornland	03/09/20	2.2 Continue, as of 3/9, to create restructuring plan of week and upcoming month based on cancellation of KPMG training effort - moving deliverables up a week on timeline.;	2.2	
Bob Zhang	03/09/20	2.0 Defined asset and attribute types for Collibra Operating Model in order to streamline the import into Data Governance Center.	2.0	
Dan Matulula	03/09/20	1.8 Continued finalization of the S3 software module / privacy & risk section of Collibra tool implementation strategy;	1.8	
Dan Matulula	03/09/20	1.2 Finalized the threshold Collibra workflows and 0.5 began third party profiling.	1.7	
Bob Zhang	03/09/20	1.0 Meeting with T. Sedgwick, B. Zhang, J. Conkel, Y. Kerzner, K. Hornland, G. Dupree, D. Matulula, and B. Zhang (KPMG) to discuss the deliverable completion dependencies relative to the Data Inventory and De-Identification work streams. T. Sedgwick, K. Hornland, and B. <b>Name</b>	<b>Date</b>	<b>Description</b>	<b>Hours</b>	<b>Amount</b>
Kristy Hornland	03/25/20	3.4 Review of the current state Disaster Recovery (DR) plan in preparation for upcoming DR exercise, specifically, determined step by step needed to complete DR successfully.;	3.4	
Garrett Dupree	03/25/20	2.7 Updated the data de-identification technical runbook deliverable to include additional details around the processes for altering existing or creating new roles within the Vendor B DgSecure interface. This task was particularly lengthy as these roles have very many options for configuring permissions, all of which needed to be noted within this deliverable.	2.7	
Garrett Dupree	03/25/20	2.3 Updated the data de-identification technical runbook deliverable, as of 3/25, to include additional details around the processes for managing user membership and permissions via Active Directory security groups. This included the attachment of topic-relevant screenshots to support the details.	2.3	
Bob Zhang	03/25/20	2.0 Updated Remediation Pilot Report, as of 3/25, based on feedback from K. Hornland (KPMG).	2.0	
Garrett Dupree	03/25/20	1.8 Updated the data de-identification deliverable to have consistent formatting between sections and appropriate text sizes. Multiple project members have contributed to this document, which has introduced this variance in document formatting.	1.8	
Bob Zhang	03/25/20	1.5 Performed analysis comparing Amazon Web Services account listing with AMPS data.	1.5	
Yosef Kerzner	03/25/20	1.2 Examining updated Cloud De-Identification project plan as provided by K. Hornland (KPMG) via email, concurrently noting relevant project details.	1.2	
Bob Zhang	03/25/20	1.1 Meeting with S. Chawande, F. Molina (PG&E) to troubleshoot outstanding Firewall Exception Requests based on guidance from C. Patel (PG&E). Resolved to coordinate Firewall troubleshooting with W. Xie (PG&E);	1.1	
Bob Zhang	03/25/20	1.0 Configured Jobserver in QA,DEV, and PROD environments.;	1.0	
Bob Zhang	03/25/20	1.0 Performed troubleshooting over Jobserver monitoring logs and ports;	1.0	
Kristy Hornland	03/25/20	1.0 Continue, as of 3/25, to perform Senior Associate review the operating model as submitted by teammate B. Zhang (KPMG)	1.0	
Michael Gomez	03/25/20	1.0 Discussion with T. Sedgwick and K. Hornland regarding review of Data de-identification roadmap for the cloud with (KPMG); roadmap and change to CWA was required as PG&E was requesting a change to the CWA.	1.0
